## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-38 are rejected under 35 U.S.C. 103(a) as being unpatentable over 'PA1 further in view of Habing (U.S. 5,897,467). See paragraphs 3-38 of the office action dated July 9, 2003. Furthermore, 'PA1 teaches horizontal axes of rotation that extend through the seated user's elbows, and further that the axes of rotation remain stationary as the movement arms move between the extended and retracted positions.

### ***Response to Arguments***

3. Applicant's arguments filed 10/16/2003 have been fully considered but they are not persuasive. Specifically applicant has argued that amendments to the claims require that the axes of rotation remain stationary. Examiner agrees that the axes of rotation of Habing do not remain stationary, however, the angles formed in the horizontal plane by the axes of rotation at the elbow remain constant. Examiner has relied on this feature in combination with 'PA1 as a base reference as Habing has chosen the angles based on suitability in biceps exercises. In response to the argument that Habing does not teach the desired angles, figure 7 of Habing shows that the elbow pads, and thus the angles of the axes of rotations appear to be at an angle approximately near the desired range as claimed by the applicant. Furthermore,

Examiner feels that the angles of the axes of rotation are germane to 'PA1, and that the angles of axes of rotation as taught by Habing does not teach away from 'PA1.

***Conclusion***

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
